SUMMARY

Final-year BCA student (Mumbai University, 2027) and frontend / full-stack developer, currently working as a Frontend Developer Intern at SevenX Labs on web and mobile applications built with Next.js, TypeScript, Tailwind CSS, and Expo. Built and deployed Eva Bloom, a full-stack e-commerce platform with Razorpay payments, and StackAudit, an AI-powered API spend auditing tool using the Gemini API. Targeting fresher frontend and full-stack roles in Mumbai, Thane, and Navi Mumbai.

EXPERIENCE

Frontend Developer Intern · SevenX Labs Sep 2026 – Dec 2026
Remote, full-time

- Build and maintain pages and reusable components for websites and applications using Next.js, TypeScript, and Tailwind CSS.
- Develop cross-platform mobile app features and screens with Expo (React Native).
- Integrate frontend features with backend APIs and third-party services.
- Diagnose and fix UI and functional bugs across web and mobile codebases.

SKILLS

Frontend	React, Next.js, Tailwind CSS, Framer Motion, GSAP, HTML, CSS, JavaScript
Mobile	Expo (React Native)
Backend	Node.js, Express, Prisma, REST APIs
Database	Supabase (PostgreSQL), MongoDB
Tools	Git, GitHub Actions, Vercel, VS Code
Languages	TypeScript, JavaScript, Python (learning)

PROJECTS

Eva Bloom **evabloom.vercel.app**
React · Vite · Tailwind v4 · Framer Motion · Node.js · Express · Prisma · Supabase · Razorpay · Resend

- Full-stack jewellery e-commerce platform deployed on Vercel (frontend) and Render (backend).
- Integrated Razorpay payment gateway with refund support and order lifecycle management.
- Implemented an RBAC admin dashboard, Resend email notifications, and Upstash Redis rate limiting.
- Set up CI/CD with GitHub Actions; used Cloudflare for DNS and edge caching.

StackAudit **stackaudit.vercel.app**
Next.js 15 · TypeScript · Tailwind v4 · Supabase · Gemini API · Resend · Vitest

- AI-powered tool that audits API spend across providers and surfaces cost insights via the Gemini API.
- Built as a hiring assignment for Credex, with clean CI and a passing Vitest test suite.
- Automated markdown deliverable generation and Resend-powered email reporting.

Portfolio **manthanut.site**
Next.js · GSAP · Framer Motion · Tailwind CSS · Resend

- Personal developer portfolio with GSAP scroll animations and Framer Motion page transitions.
- Showcases live projects and freelance work.

React Quiz App **github.com/manthanut27**

React · Framer Motion · React Router v6 · Context API · localStorage

- Sectioned quiz application with animated transitions and a persistent localStorage leaderboard.
- Uses React Router v6 for navigation and Context API for global state management.

EDUCATION

Bachelor of Computer Applications (BCA) Expected 2027 – 2028

Sahyog College of IT and Management Studies, Mumbai University, Thane, Maharashtra

ADDITIONAL

- **Hawkathon 2026** participant: built a Personal Cybersecurity Toolkit (React, Node.js, Supabase, agent-based architecture).
- **Freelance** web development for local small-business clients in Mumbai and Thane.
- Enrolled in the Google × Kaggle 5-Day AI Agents course (June 2026).
- Joined the Google AI Bootcamp organised by Hack2skill.
